Hi Claire

Ok I have had a look at the viewpoints indicated which generally look fine and what we would expect to see. My only observation would be that viewpoint 19 (The Trundle, South Downs) appears to be the only distant viewpoint, there may be benefit and potential to have further extended viewpoints from the North and West towards the proposed development?

Trust that this is of use.

Regards

Sue

Sue,

I understand but as a minimum would you be able to look at the map which shows the viewpoints they are proposing to use and let me know if they are what you would expect to see?

Thanks

Claire

Hi Claire

Apologies you are still awaiting this one, but I don't have it on my radar. When it came in I passed it to Joe as 'scoping opinion' is not something I have dealt with before.

Unfortunately therefore I'm not proposing a response on this one, I have copied Joe, as have to refer you back to him on this one, but note also he is out of the office today too.

Regards

Sue

Subject: *OVERDUE* Consultation responses on West Bersted

Importance: High

All,

I am currently finalising ADC's response on the Scoping Request for West Bersted BE/65/17/EIS. The deadline for issuing the Opinion is this Friday 16th and this is not moveable so I need to finalise the draft tomorrow (Wed). Therefore please could I have comments by the end of tomorrow.

Please could you all check the document and confirm whether you are satisfied with the relevant section setting out the Scope of the Environmental Statement as proposed by the applicants or whether there is anything else that should be included in the ES.

If you have a look at the attached draft Scoping Opinion you will see where the gaps are where I need additional information/ comments (if there are comments in yellow they are from a previous Scoping Opinion).

Sue – as well as the Scope of the LVIA they have specifically asked for comment on the viewpoints to be included.

If you are not proposing to response please let me know.

Kind regards

Claire
