

I would like to change the use of my conservatory in order to operate my dog grooming business. I would be working from 9am to 5pm Monday to Friday, grooming 4/5 dogs per day. I would allow 15 minutes between appointments for customers to collect or drop off their dogs to prevent any parking issues. I will be offering a pick up and drop off service to minimise traffic at my home. I have two private parking spaces that are at the back of my home with easy access to the garden. I will be grooming one dog at a time and the conservatory is insulated and has sound proof glass. Each dog would be kept under control at all times. I will not be boarding dogs over night nor will I be employing anyone to work with me or working late night and weekends.
