Morning Simon,

That would be great if the pedestrian condition could be added so it falls in line with the previous approval.

Kind Regards,
Emma

Dear both,

This application is being heard at the Development Control Committee tomorrow afternoon (09/10/19 starting at 2.30pm). If an additional condition is required then I can request it be added as I have until 10am tomorrow to include it in the written report update. I will go ahead and do this. The condition will say:

No part of the development shall be first occupied until such time as the pedestrian access footways/crossing points on Shripney Road serving the development have been constructed in accordance with plans and details submitted to and approved in writing by the Local Planning Authority, in consultation with the Local Highway Authority.

Reason: In the interests of road safety and in accordance with policy T SP1 of the Arun Local Plan and the National Planning Policy Framework.

Kind Regards

Afternoon Charlotte,

The below conditions seem to cover the highways works, although I notice the Pedestrian Access condition that was applied to the 2017 application for the same site (BE/63/17) is not included. I'm not sure if this can be included now as a condition as it was with the previous consent or if we would have to secure these works now via the s106 agreement?

Kind Regards,
Emma

Hi Emma,

I believe you sent the highways consultation to ADC for the above application, I am currently negotiating the S106 which I had believed there is nothing to be added from a Highways clause other than an estates road clause, however it has been brought to my attention that some of the land included within WSCC highway boundary.

I therefore wanted to double check that all required consents and restrictions have been secured by the planning conditions, ADC have confirmed below the highway related conditions in the email below to be included in the planning permission?

Many thanks
