Please describe the activities and processes which would be carried out on the site and the end products including plant, ventilation or air conditioning. Please include the type of machinery which may be installed on site:

cooking of hot food for sale to the general public. full commercial extraction and oil capture equipment will be fitted. This will comprise a 3.5 metre commercial grade extraction hood containing grease baffles made of stainless steel and will completely cover the cooking area. This will connect to an extraction chimney which will exit the building approximately 3 metres from the above dwelling at the rear of the property and will extend to a height above the upper storey windows. this will be powered by a suitable extraction fan running at 76 db(equivalent to living on a main road which the dwelling is situated on) and capable of extracting 7500 m3/hr of air. This equipment is exactly the same as the chinese and indian takeaways either side of the property with the exception of the outlet being further away from the upstairs dwelling than at the other establishments(whos extractors actually run up the outer wall if thier above dwellings). The upstairs dwelling is owned by the same landlord as the below premise and they have no objection to this equipment. Any new tenant(highly likely to be myself) would be aware of the situation before signing a new lease so would have full knowledge of any potential noise nuisance. the operating times of the equipment would be within the times of the neighbouring establishments operating hours so will not be an increase on the current situation.
