Dear Sirs

**Restoration and Reuse of
Out Building at Randall Cottage, 111, North Bersted**

Further to our initial enquiry in April and in response to the advice given by Mr White.

Please find enclosed our Planning Listed Building Applications for the restoration and re-use of our outbuilding at the above.

We have retained the services of our structural engineer, Peter Willmott to assist us in the restoration of the outbuilding and enclose his e-mails listing what works he feels will be required.

Since speaking to Mr White, and following his suggestion, we have engaged an archaeologist, Fred Aldsworth, to research the history of the building and have used the information contained in his Listed Building Assessment, enclosed with the applications, to assist in formulating our proposals.

Both Fred Aldsworth and Peter Willmott have agreed to assist us with any queries you may have and if you would like to visit the building, please contact Margaret on [REDACTED]

We have followed the application advice on your council to prepare drawings and a written statement for our application but if we have missed anything, please let us know.

[REDACTED]

Martin and Margaret Todd
