Subject: RE: Planning Consultation on: BE/81/20/OUT

Dear Sirs,

EH comments below for the above planning application with reference to the Arun District Council Environmental Health Planning Conditions;

Planning Conditions

CD01 – Construction/Demolition Management Plan

No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters:-

- a. An indicative programme for carrying out of the works;
- b. Details of the arrangements for public engagement / consultation both prior to and continued liaison during the construction works;
- c. Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s);
- d. Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
- e. The parking of vehicles of site operatives and visitors;
- f. Loading and unloading of plant and materials, including permitted times for deliveries;
- g. Storage of plant and materials used in constructing the development;
- h. The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- i. The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- j. Measures to control the emission of dust and dirt during construction;
- k. A scheme for recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

CD02 - Hours of working on construction/demolition sites

No construction / demolition activities shall take place, other than between 08:00 to 18:00 hours (Monday to Friday) and 08:00 to 13:00 hours (Saturday) with no 'noisy' work on Sunday or Bank Holidays

[In addition to these hours of working the Local Planning Authority may approve in writing a schedule of activities where it is necessary to conduct works outside the hours specified in this condition]

Notes: the words in square brackets may be adjusted to reflect site specific constraints

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

AQ01 - Electric Vehicle Charging Points

Prior to occupation of any of the dwellings, a scheme for the provision of facilities to enable the charging of electric vehicles to serve the approved dwellings shall be submitted to the local planning authority for approval and thereafter implemented in accordance with the approved details and the charge points shall thereafter be retained and maintained in good working condition.

Reason: New petrol and diesel cars / vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality, in accordance with policy QE DM3 (c) of the Arun Local Plan, the Arun District Council Electric Vehicle Infrastructure Study (November 2017) and the National Planning Policy Framework (NPPF).

PCL03 – PCL: Asbestos

The owner(s) of any commercial property (warehouses, offices, etc.) built before 2000 are legally obliged to hold a copy of an asbestos register for each property in their portfolio. As the proposed development is being renovated to residential, the Council need to be satisfied that if any asbestos previously identified is still present, it is either removed or suitably managed to minimise risk to human health as there is no safe threshold for asbestos exposure. A copy of the asbestos register, and any remedial strategy (where appropriate), must be provided in writing to the Local Planning Authority prior to any works commencing.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

N20 - Hours for deliveries

No commercial goods shall be loaded, unloaded, stored or otherwise handled and no vehicles shall arrive or depart, within the application site outside the hours 07:00 to 19:00 Monday to Friday, 08:00 to 18:00 Saturday or at any time on Sunday or Public or Bank Holidays.

PCL02 – Full contaminated land

Prior to commencement of the development hereby approved (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved in writing by the Local Planning Authority:

1. A 'Preliminary Risk Assessment' which has identified: all previous (historical) uses; potential contaminants associated with those uses; a conceptual model of the site indicating sources, pathways and receptors; and potentially unacceptable risks arising from contamination at the site.
2. A 'Site Investigation Scheme', based on (1) above to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.
3. Based on the 'Site Investigation Scheme' and the detailed risk assessment (2), an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.
4. A 'Verification Report' providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Note: Any changes to these components, (1) to (4) require the express written consent of the Local Planning Authority.

The scheme shall be implemented as approved above and, prior to commencement of any construction work (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a Verification Report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of that remediation shall be submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. The report shall also include a 'long-term monitoring and maintenance plan' for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification report, and for the reporting of this in writing to the Local Planning Authority.

Reason: To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

AQ04 - Air Quality

As this is a major application, consideration must be given to air quality issues. As per the National Planning Policy Framework (NPPF) (updated February 2019) air quality should be considered at the design stage and incorporate appropriate and effective mitigation.

The applicant must follow the Air Quality & Emissions Mitigation Guidance for Sussex (2013), available at:

<http://www.sussex-air.net/Consultation/AirQualitydocument.pdf>

This countywide adopted guidance states that where a major sized development is proposed a number of checklists should be followed in order to determine the likely impact of the proposed development on air quality. The intention of the guidance is to identify any air quality impacts through an impact assessment and ensure the integration of appropriate mitigation into a scheme at the

design stage, so the damage costs on health can be properly mitigated. The air quality impact assessment can follow the procedures contained within the Institute of Air Quality Management (IAQM) Guidance entitled: 'Land-Use Planning & Development Control: Planning For Air Quality' (January 2017), available at:

<http://www.iaqm.co.uk/text/guidance/air-quality-planning-guidance.pdf>

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

L01 - Lighting

Details of the proposed lighting scheme for the development shall be provided and approved by the Local Planning Authority before installation.

Due to the relative proximity of existing residential premises there is the potential for the development to cause a loss of amenity as a result of light glare / creep / bleed.

Light intrusion into residential windows shall not exceed 10 Lux between 07:00 and 21:00 hours and 5 Lux between 21:00 and 07:00 hours, measured as Vertical Illuminance (EV) normal to glazing. The Sky Glow (Upward Light Ratio) shall not exceed 5.0%

Prior to the commencement of the development, details of the external lighting of the site shall be submitted to and approved in writing by the Local Planning Authority. These details shall include the predictions of both horizontal illuminance across the site and vertical illuminance affecting immediately adjacent receptors. The lighting installation shall comply with the recommendations of the Institution of Lighting Professionals (ILP) "[Guidance Notes for the Reduction of Obtrusive Light](#)" (GN01:2011)

[Prior to occupation, the predicted illuminance levels shall be tested by a competent person to ensure that the illuminance levels agreed in the scheme are achieved. Where these levels have not been met, a report shall demonstrate what measures have been taken to reduce the levels to those agreed within the application scheme].

[The approved installation shall be maintained and operated in accordance with the approved details unless the Local Planning Authority gives its written consent to a variation].

Reason: To protect the amenity of local residents in accordance with Policy QE DM2 of the Adopted Arun Local Plan 2011 – 2031

N17 - Industrial / Commercial Noise

Construction work shall not commence unless and until an impact assessment of the noise from the development on nearby residential properties has been completed and submitted in writing to the Local Planning Authority. The impact assessment shall include noise from deliveries and operation of the development and shall include a noise mitigation scheme.

The assessment shall have regard to the principles of BS 4142:2014 and achieve a difference between the measured 'rating' level and the measured 'background' level of at least 5dB(A). A test

to demonstrate compliance with the noise mitigation scheme shall then be undertaken by a competent acoustician / consultant before the use commences.

Reason: To protect the amenity of local residents in accordance with Policy QE DM1 of the Adopted Arun Local Plan 2011 – 2031

N21 – Noise from Plant Equipment

Prior to the first use of the premises, details of any plant (including ventilation, refrigeration and air conditioning) and / or ducting system to be used and the method of control of noise and vibration of this plant shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details. The scheme shall ensure that the noise and vibration generated at the boundary of any noise sensitive property shall not exceed Noise Rating Curve: NR35 as defined within Table B.1: Noise Rating Values of BS 8233:2014.

The equipment installed and commissioned shall be maintained in a condition and operated in compliance to the approved scheme whenever it is operation so that it does not exceed NR35 as described above, whenever it's operating. After installation of the approved plant, no new plant or ducting system shall be used without the prior written consent of the Local Planning Authority.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Informative

Use of an acoustic fence barrier around the boundary of the site to help mitigate noise nuisance for neighbouring properties from works on the site.

Kind Regards

Nick Howard

NOTIFICATION FROM ARUN DISTRICT COUNCIL

Town & Country Planning Act 1990 (as amended)

Town & country Planning (Development Management Procedure) (England) Order 2015 - Article 5

Outline Consent

Application No: BE/81/20/OUT
Registered: 6th August 2020
Site Address: Chalcroft Nursery Chalcroft Lane Bersted PO21 5TS
Grid Reference: 491797 100522
Description of Works: Outline application with some matters reserved for the development of 20 residential dwellings, 2,240 sqm of commercial space (Use Class A1, B1(b) B1(c) and B8), landscaping, access, parking and associated infrastructure

The Council have received the above application.

Should you have any comments to make, these should be sent by replying to this email by 11th September 2020 . You can also monitor the progress of this application through the Council web site:

www.arun.gov.uk/planning.

The application will be determined having regard to the development plan policies (if any are relevant) and other material considerations. The development plan can be accessed via the website <https://www.arun.gov.uk/development-plan> as can the the leaflet how to respond to planning applications <https://www.arun.gov.uk/planning-application-comments> which deals with material planning considerations.

Please be aware that any comments you may make will be available on our website so please do not insert personal details or signatures on your reply.

Should the application go to appeal the Planning Inspectorate will publish any comments made to the Council on their website: <https://www.planningportal.co.uk/info/200207/appeals> but they will protect personal details.

In the absence of a reply within the period stated, I shall assume that you have no observations to make

Yours sincerely

James Cross
