Dear Claire Forrest,

Prior to submitting a formal planning application. I would appreciate your opinion as to whether Arun District Council would approve an extension to a property namely 17 Frandor Road, Bognor Regis, Sussex.
The plot, that is adjacent to the property, has had planning refused for a detached bungalow ref: BE/89/07 and BE/132/07
I now wish to attach to the north elevation (gable wall) a single storey, flat roof extension, that would not project no more than 4. meters onto the plot along the total length of the gable wall. The materials for this project would be a like for like .The distance between the proposed extension and the highway boundary would have a clear space of over 5.7 meters that would be landscaped with grass and hedge.

I wish to work with Arun District Council Planning Dept regarding this project and look forward to your comments.

Yours sincerely,

Stuart long
