Simon

This landscape plan does not reflect the tree / landscape belt accurately - it is much deeper as per the plan i submitted.

It refers to the old hedge the neighbour had which has been largely replaced by the +3m wide landscape belt. This plan is VERY out of date.

On their site plan there is very light dotting and this is the actual outline of the landscape belt.

Kind regards

Steve Jupp

Dear Steve,

The agent has asked that you look at the landscape plan which shows the tree belt to be retained. She has said that if she has further questions, you can contact her.

This plan had already been sent to us and is in the process of being added to the web files.

Please also note that I have asked our Tree Officer to comment on the application.

Kind Regards
