Dear Sir / Madam,

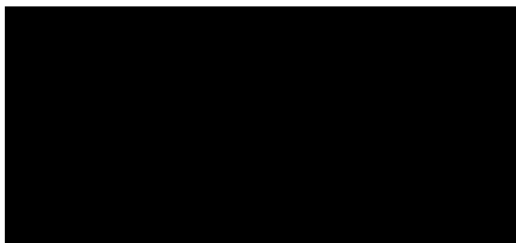

RE: Nursery Fields, North Bersted – Ecological Reports

Ecology Solutions Limited have undertaken ecological survey and assessment work at the Nursery Fields site and produced an Ecological Assessment report and a Shadow Habitats Regulations Assessment document which accompanied the previous planning application for this site in 2020 (reference BE/20/148/OUT).

Having undertaken a comprehensive review of both documents, there have been no changes to either legislation or policy which would alter the assessment and conclusions set out within either the Ecological Assessment or the Shadow Habitats Regulations Assessment.

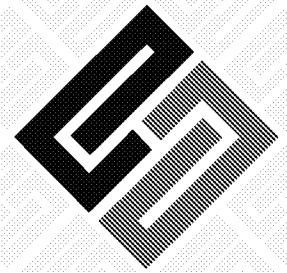

However, in order to consolidate further information and clarification which was submitted during the course of the previous application, such that all concerns previously raised by Natural England and the Biodiversity Officer have been addressed, the Shadow Habitats Regulations Assessment report has now been updated and is supported by a Wintering Bird Survey Report.

Yours faithfully,

Simon Taber
Director
