

101 North Bersted Street

Bognor Regis

West Sussex

1st June 2021

Dear Planning Dept

Heritage statement

I am applying for listed building consent to demolish the wall above the original stone and flint wall leaving the original below it. The wall above is severely damaged and I wish to re-instate the wall to its original form, which would be low level. The additional wall was probably added in the 1960-1970's prior to it being listed, as there is a concrete lintel above the arch which is not original. I wish to re-instate wall to how it once looked many years ago. Therefore, adding to the charm to the road and house., keeping similar to other thatched listed properties in the road.

Yours faithfully

Nigel Gillespie
