David,

Noted - thanks for your email. I can confirm our agreement to an extension until 15th March. I am sure you will, but if there is any opportunity for determination sooner than this date then it would be great if this could be explored.

Kind regards
Charlie

Dear Charlie,

Thank you for providing this information. Unfortunately, our drainage engineer is out of the office until the 5th March and as such I will require a three week extension of time to secure comments and complete the recommendation report.

Therefore, I would be grateful if you could provide written confirmation of your agreement to an extension of time until the **15th March 2019**.

Please do not hesitate to contact me should you wish to discuss.

Kind regards,
David

Dear David,

Please find attached a copy of Final construction drawing overlaid with the proposed layout of the temporary building. It has been confirmed by the construction contractors (McLaren Group) that this final construction drawing reflects the "as built" position. My apologies in the delay in getting the information over to you.

There are no direct risks to the drainage system from the vented manhole cover being within the temporary structure, and management and maintenance arrangements for ensuring adequate access is set out within the accompanying Surface Water Drainage Note.

I trust that this now completes the package of information required by ADC's drainage officer, and provides the necessary confirmation to enable a positive determination of the application. As previously discussed, we would be satisfied to provide details of loadings pursuant to an appropriately worded condition.

I'm conscious of our need to agree an extension of time to enable consideration of the further details – would two further weeks be sufficient (i.e. to Friday 8th March). I'd be grateful if you could confirm receipt.

Do let me know if you have any queries.

Kind regards
Charlie
