Thanks David,

I can confirm that we agree to an extension of time until 17th July.

Kind regards
Charlie

Hi Charlie,

Are we able to agree another extension of time to allow for me to discuss the response with our drainage engineers once received? I would suggest until the 17th July.

Please let me know if you are happy with this.

Many thanks,

David

David,

Just to confirm that we expect to be able to respond to you on that specific manhole shortly – which is just being agreed with AECOM.

Thanks and kind regards

Charlie

Dear Charlie,

I spoke with Laura Gibbons yesterday and she has confirmed that the approach as identified in relation to the control chamber and vented catch pit situated within the building are acceptable. However, no information has been provided setting out how access will be achieved to MH S5 situated to the south-east of the proposed building as identified on the 'as-built drainage' drawing.

I would be grateful if you could please clarify the situation in relation to access to this man-hole so as I can discuss this with Laura upon her return to the office next week.

Many thanks,
David

David,

Apologies – I have been out of the office this afternoon, but I can confirm our agreement to an extension of time until 10th July.

Happy to discuss once you have had the opportunity to review.

Kind regards
Charlie

Hi Charlie,

Following on from my email earlier I have just got to this email. I will take a look at this later this afternoon and try to discuss with our drainage engineers tomorrow when they are back in the office. I would be grateful if you could please confirm your agreement to the extension of time as proposed in my earlier email.

Many thanks,
David

Importance: High

David,

We have now picked up the response from the Drainage Engineer which has just been made available via the online portal. I understand that Laura Gibbons has raised concerns regarding maintenance.

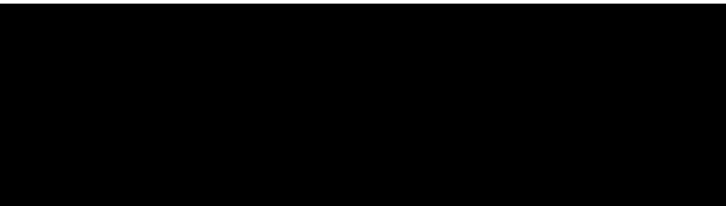

Our understanding was that the concerns regarding maintenance had been addressed in our previous response dated 22nd February (which includes specific details regarding how access will be maintained and the operation of the building), which remains as part of the submitted documentation. Similarly, it been previously agreed that details of loading could be secured by virtue of condition (email dated 11th January).

I have tried to call but haven't been able to get through. I would be grateful for an opportunity to discuss to enable us to move forward.

Thanks and kind regards

Charlie
