Dear Neil

**CONTAMINATED LAND INVESTIGATIONS:
LAND AT OLDLANDS FARM SHRIPNEY ROAD BOGNOR REGIS PO22 9NN**

We have reviewed the Desk Study and Site Investigation report produced by Hydrock Consultants Ltd dated June 2014 (Ref: R.14459.002) and the Ground Investigation Report dated July 2014 (Ref: R.14459.003).

We can concur with the conclusion and recommendations made in their letter report of 12th August 2014 (Ref: C14459/G003/003) in that no contamination has been identified across the site development area.

We therefore agree with the recommendation made to discharge the 3 parts of Condition 7.

Yours sincerely

Catherine Hutchins
