Hi Richard,

Thanks for your email. I have looked at the plans, visited the site and liaised with colleagues. We like the initial design ideas for the David Purley memorial as suggested, the links to the local area and current use of the site have been well thought through and whilst we will wait to see the final designs to approve for the application we are supportive of this approach for the public art at the site. In terms of the location for the artwork this has been considered and the attached plan and visual (taken from the Observer) indicate where we would request the public art to be sited. The area of land at the front of the building indicated on the plan as 'Rolls Royce Key Signage Area Subject to Separate Application' would be an ideal location for the public art and we would ask that it is incorporated into the separate application and design for the key signage and landscaping in this area. The artwork will complement the signage and be a key focal point for people driving to the Rolls Royce building.

My colleague Sue Howell is expecting to be consulted on the planning application for the Key Signage Area and I would ask that we are also consulted on this when the application comes in so that we can approve the final siting and design for the public art.

If you have any queries please let me know otherwise we will wait to hear from you regarding the final designs and siting in due course.

Kind regards
Sadie

Subject: BE/97/15/DOC Oldlands Farm Public Art

Hi Sadie,

I'm dealing with the DOC for public art siting on the above application. I hope you're able to see the plans on the electronic system but would you be able to advise me where it should be sited on the land?

Regards,

Richard
