Subject: Public art - Rolls Royce

Richard,
I have returned the file to you can you process on my behalf.

The scheme is acceptable in terms of location and design from a planning perspective. I believe that alternative designs like those used for Public Art at Site 6 would have been better. However, our role is to determine whether what has been submitted is acceptable and it is.

I understand that Rolls Royce would like to consider an alternative location. The Council would be willing to work with them on this. Could you confirm that the Council would not seek to enforce the implementation of this condition for an agreed period of time should they confirm that they wish to explore an alternative location (and/or design).
