2 Site Address

Springfields
Chichester Road
Bersted
PO21 5EE

3 Description of Development

1 No. dwelling. This application is a Departure from the Development Plan. This application is in CIL Zone 3 and is CIL liable as new dwelling.

4 In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to compliance with the following conditions and Section 106 Agreement.

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby approved shall be carried out in accordance with the following approved plans:

Dwg. 0520-01/01 "Site Location Plan";
Dwg. 0520-01/03 Rev B "Proposed Site Layout";
Dwg. 01 "Foundation Slab";
Dwg. 02 "Ground Floor Plan";
Dwg. 04 "Section A-A, B-B";
Dwg. 08 "Windows List";
Dwg. 09 "WC, Bath";
Dwg 3105/AD1 Rev P1 "Proposed Floor Plans, Proposed Roof Plan, Proposed Elevations"; and
"Tree Constraints Plan" (16/03/2018).

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policies D DM1, T SP1 and QE SP1 of the Arun Local Plan.

- 3 The development hereby approved shall be implemented in accordance with the recommendations of the approved Ecological Appraisal (December 2019) and the items listed below.

- The site must be searched carefully before works begin. If any small mammals including hedgehogs are found they should be relocated away from the construction area into surrounding suitable habitats.
- Any brush piles, compost and debris piles on site could provide shelter areas and hibernation potential for hedgehogs so these piles must be removed outside of the hibernation period mid-October to mid-March inclusive. The piles must undergo soft demolition.
- Any trenches, pits or holes should be covered overnight, or a means of escape made available and any hazardous chemicals need to be suitably stored away so animals cannot access them.

These measures shall be implemented in full and permanently adhered to throughout the development to the satisfaction of the Local Planning Authority.

Reason: To mitigate harm during construction to bats, birds, badgers & small mammals, reptiles and other wildlife species in accordance with Arun Local Plan policy ENV DM5 and the National Planning Policy Framework.

- 4 No development shall commence until a Construction Management Plan has been submitted to and approved in writing by the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters,

- the anticipated number, frequency and types of vehicles used during construction,
- the parking of vehicles by site operatives and visitors,
- the loading and unloading of plant, materials and waste,
- the storage of plant and materials used in construction of the development,
- the provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulation Orders),

Reason: In the interests of highway safety and the amenities of the area in accordance with policies D DM1 and T SP1 of the Arun Local Plan and the National Planning Policy Framework. This is required to be a pre-commencement condition because it is necessary to have the site set-up agreed prior to access by construction traffic.

- 5 Development shall not commence, other than works of site survey and investigation, until a Soil Resource Plan has been submitted to and approved in writing by the Local Planning Authority. This shall set out how the best and most versatile soils on the site are to be protected during construction and then recycled/reused in the new development layout. The soil protection/mitigation measures shall be implemented as per the document and then permanently adhered to throughout the construction and development of the site.

Reason: In accordance with Arun Local Plan policy SO DM1 and the National Planning Policy Framework. It is considered necessary for this to be a pre-commencement condition to protect the best and most versatile soils on the site prior to the construction commencing.

- 6 No part of the site shall be occupied or any heavy plant/equipment introduced to the site or demolition work or construction work or alterations to existing ground levels shall take place (but

not including survey work) unless and until an Arboricultural Method Statement and Tree Protection Plan have been submitted to and approved in writing by the Local Planning Authority.

Thereafter a pre-commencement site meeting must be arranged to take place between the Arun DC Tree Officer and the Arboricultural Expert or Landscape Architect representing the site owners at which time, all tree protection measures will be inspected and assessed to verify that it is 'Fit for Purpose' as required under British Standard 5837:2012 and have been erected and positioned exactly as shown on the approved drawings.

Reasons: To comply with BS5837 and with Arun Local Plan policy ENV DM4 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality is not compromised and they can continue to enhance the landscape and amenity of the area. This is required to be a pre-commencement condition because it is necessary to ensure the protection of the protected and otherwise significant trees prior to any change to the surface of the site.

- 7 No development shall commence until a mitigation method statement has been submitted to and approved in writing by the Local Planning Authority to provide details of how those retained hedgerows and tree lines are to be protected and enhanced. There must be a 5m buffer zone in place secured by fencing around the retained hedgerows during construction. The development shall thereafter proceed in accordance with the approved hedgerow protection and enhancement measures.

Reason: Bats use hedgerows for foraging and commuting and therefore in accordance with the NPPF and policy ENV DM5 of the Arun Local Plan. This is required to be a pre-commencement condition because the hedgerow protection scheme must be in place prior to construction starting.

- 8 Prior to commencement of the development hereby approved (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved in writing by the Local Planning Authority:

1. A Preliminary Risk Assessment which has identified: all previous (historical) uses; potential contaminants associated with those uses; a conceptual model of the site indicating sources, pathways and receptors; potentially unacceptable risks arising from contamination at the site.
2. A Site Investigation Scheme, based on (1) above to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.
3. Based on the Site Investigation Scheme and the detailed risk assessment (2), an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.
4. A Verification Report providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Note: Any changes to these components, (1) to (4) require the express written consent of the Local Planning Authority.

The scheme shall be implemented as approved above and, prior to commencement of any construction work (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a Verification Report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of that remediation shall be submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. The report shall also include a long-

term monitoring and maintenance plan for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification report, and for the reporting of this in writing to the Local Planning Authority.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with Arun Local Plan policies QE SP1 and QE DM4. This is required to be a pre-commencement condition because these details have to be agreed and in place before any work commences.

- 9 No development above damp proof course (DPC) level shall take place until there has been submitted to, and approved by, the Local Planning Authority, a landscaping scheme including details of hard and soft landscaping and details of existing trees and hedgerows to be retained. The approved details of the landscaping shall be carried out in the first planting and seeding season, following the occupation of the buildings or the completion of the development, whichever is the sooner, and any trees or plants which, within a period of five years from the completion of development, die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of landscape character and visual amenity in accordance with policies LAN DM1 and D DM1 of the Arun Local Plan.

- 10 No development above damp proof course (DPC) level shall take place until a scheme for protecting the proposed dwellings from noise from road traffic on the A259 and from nearby commercial properties (including the recycling centre at Elbridge Farm) have been submitted to and approved in writing by the Local Planning Authority. Any works which form part of the scheme approved by the Local Planning Authority shall be completed before any permitted dwelling is occupied unless an alternative period is agreed in writing by the Local Planning Authority.

In addition, a scheme to demonstrate that the external noise levels within the curtilage of residential units will conform to the 'Design criteria for external noise' upper guideline value of 55 dB LAeq,T as specified within section 7.7.3.2 of BS 8233:2014 Guidance on sound insulation & noise reduction for proposed developments shall be submitted to and approved in writing by the Local Planning Authority prior to any development above damp proof course (DPC) level. The work specified in the approved scheme shall then be carried out in accordance with the approved details prior to occupation of the premises and be retained thereafter.

Reason: To protect the amenity of future local residents in accordance with Policy QE DM1 of the Arun Local Plan.

- 11 No development above damp proof course (DPC) level shall take place until full details of the placement of bird, bat and hedgehog nesting facilities within the site have been submitted to and approved in writing by the Local Planning Authority. The approved details shall then be implemented in full prior to occupation and thereafter retained to the satisfaction of the Local Planning Authority. The submission shall include:

- 1 bat brick integrated into the building onsite facing south/south westerly positioned 3-5m above ground;
- 1 bird box on the building and/or on a tree within the site; and
- 1 hedgehog nesting box within the site area.

Reason: To safeguard the ecology of the area, and in the interests of birds & bats in accordance with Arun Local Plan policy ENV DM5 and the National Planning Policy Framework.

- 12 No development above damp proof course (DPC) level shall take place unless and until a colour schedule of materials and finishes to be used for external walls and roofs of the proposed building has been submitted to and approved by the Local Planning Authority and the materials so approved shall be used in the construction of the building and retained thereafter.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of amenity and character and appearance of this rural area by endeavouring to achieve a building of visual quality in accordance with policy D DM1 of the Arun Local Plan.

- 13 No development above damp-proof course (DPC) level shall take place until details (including elevations and materials) of all new boundary treatments within and around the site have been submitted to and approved by the Local Planning Authority and no dwellings shall be occupied until such boundary treatments associated with them have been erected. The details to be provided shall also ensure that gaps are provided at the bottom of the boundary treatments to ensure that hedgehogs and other small mammals are able to move into/out of and around the development.

Reason: In the interests of amenity and wildlife in accordance with policies D DM1 and ENV DM5 of the Arun Local Plan.

- 14 Prior to occupation of the dwelling, a scheme for the provision of facilities to enable the charging of electric vehicles to serve the approved dwelling shall be submitted to the local planning authority for approval and thereafter implemented in accordance with the approved details and the charge points shall thereafter be retained and maintained in good working condition.

Reason: New petrol and diesel cars/vans will not be sold beyond 2030, to mitigate against any potential adverse impact of the development on local air quality and to provide sustainable travel options in accordance with policies T SP1, T DM1 & QE DM3 (c) of the Arun Local Plan, the Arun District Council Electric Vehicle Infrastructure Study (November 2017) and the National Planning Policy Framework (NPPF).

- 15 No part of the development shall be first occupied until such time as the vehicular parking and turning facilities have been provided in accordance with details to be submitted to approved in writing by the Local Planning Authority. These along with the access to the site shall then be constructed in accordance with the approved plans and permanently retained thereafter.

Reason: In the interests of road safety and in accordance with policy T SP1 of the Arun Local Plan and the National Planning Policy Framework.

- 16 No part of the development shall be first occupied until covered and secure cycle parking spaces have been provided in accordance with plans and details submitted to and approved by the Local Planning Authority. The approved cycle storage spaces shall thereafter be permanently retained and maintained in good working condition.

Reason: To provide alternative travel options to the use of the car in accordance with Arun Local Plan policies T SP1 & T DM1 and the National Planning Policy Framework.

- 17 The new dwelling shall not be occupied unless and until the applicant has submitted a scheme for approval by the Local Planning Authority to demonstrate that the development will incorporate decentralised, renewable and low carbon energy supply systems. The approved scheme shall thereafter be implemented prior to occupation of the dwelling and any approved renewable energy supply systems shall be permanently retained & maintained in good working order thereafter.

Reason: To ensure that the development is energy efficient and in accordance with policy ECC SP2 of the Arun Local Plan.

- 18 Prior to the occupation of the new dwelling, a strategy for the provision of the highest available

headline speed of broadband provision to future occupants of the site shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall consider the timetable for the delivery of 'superfast broadband' (defined as having a headline access speed of 24Mb or more) in the vicinity of the site (to the extent that such information is available). The strategy shall seek to ensure that upon occupation of a dwelling, the provision of the highest available headline speed of broadband service to that dwelling from a site-wide network is in place and provided as part of the initial highway works and in the construction of frontage thresholds to dwellings that abut the highway. Unless evidence is put forward and agreed in writing by the Local Planning Authority that technological advances for the provision of a broadband service for the majority of potential customers will no longer necessitate below ground infrastructure, the development of the site will continue in accordance with the approved strategy.

Reason: To safeguard the amenities of future residents in accordance with Arun Local Plan policy TEL SP1.

- 19 If during development, any visible contaminated or odorous material, (for example, asbestos containing material, stained soil, petrol / diesel / solvent odour, underground tanks or associated pipework) not previously identified, is found to be present at the site, no further development (unless otherwise expressly agreed in writing with the Local Planning Authority) shall be carried out until it has been fully investigated using suitably qualified independent consultant(s). The Local Planning Authority must be informed immediately of the nature and degree of the contamination present and a method statement detailing how the unsuspected contamination shall be dealt with must be prepared and submitted to the Local Planning Authority for approval in writing before being implemented. If no such contaminated material is identified during the development, a statement to this effect must be submitted in writing to the Local Planning Authority.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with Arun Local Plan policies QE SP1 and QE DM4.

- 20 No external lighting shall be installed on any of the buildings or within any parts of the site unless and until plans showing the type of light appliance, the height and position of fitting, illumination levels and light spillage have been submitted to and approved in writing by the Local Planning Authority. The scheme should seek to conform with the recommendations within BS5489:1-2013 but also minimise potential impacts to any bats using the surrounding trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding. The lighting approved shall be installed and shall be maintained in accordance with the approved details.

Reason: In the interests of the amenities of the area, the site biodiversity (particularly in respect of bats), the interests of minimising crime and to minimise unnecessary light spillage outside the development site in accordance with policies QE SP1, QE DM2 & ENV DM5 of the Arun Local Plan.

- 21 No construction/demolition activities shall take place, other than between 08:00 to 18:00 hours (Monday to Friday) and 08:00 to 13:00 hours (Saturday) with no noisy works (defined as works involving plant, equipment, machinery) taking place on Sundays or Bank Holidays.

Reason: To protect the amenity of local residents in accordance with policies QE SP1 and QE DM1 of the Arun Local

This application is subject to the Community Infrastructure Levy (CIL) as levied under Arun district Council's

CIL Charging Schedule as adopted on 15th January 2020.

Shortly you will receive a Liability Notice which includes the calculated charge and person(s) liable to pay. If you have not submitted all the necessary CIL forms such as Assumption for Liability ([Form 2](#)) or any appropriate exemption or relief forms available on the Councils website <https://www.arun.gov.uk/cil> you must do so prior to commencement of your development. Failure to do so would invalidate any claim for exemption or relief. Furthermore, you must remember to submit your Commencement Notice no later than the day before the day on which the chargeable development is to commence. Failure to do so could result in a surcharge of up to £2,500.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: This decision has been granted in conjunction with a Section 106 legal agreement relating to a financial contribution of £871 towards the Pagham Harbour Access Management Mitigation Measures.

INFORMATIVE: A formal application for connection to the public sewerage system is required in order to service this development, please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk. Please read the New Connections Services Charging Arrangements documents which is available to read via the following link: <https://beta.southernwater.co.uk/infrastructurecharges>.

INFORMATIVE: The development shall be carried out in accordance with the "Arun District Council Construction Code of Practice: For small developments in Arun" - see <https://www.arun.gov.uk/download.cfm?doc=docm93jjm4n12193.pdf&ver=12201>

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0345 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

Neil Crowther
Group Head of Planning

Case Officer: Mr S Davis

Decision Issued: **4th October 2021**

Arun District Council
The Arun Civic Centre
Maltravers Road
Littlehampton
West Sussex BN17 5LF

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

If you intend to submit an appeal that you would like examined by inquiry then you must send notice to the Local Planning Authority and Planning Inspectorate(inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details can be found at www.GOV.uk

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on

highway land).
