I refer to the above application to “remove a rotting branch” at 6 Nursery Close Barnham. Several years ago I registered my concerns about the condition of this tree to Richard Martin the ADC Tree and Maintenance Manager. At the time I was advised that the piece of land on which this ancient oak tree sits was going to be purchased by the adjacent property in Nursery Close, Barnham.

I expressed concerns then that under these circumstances this ancient tree would eventually be felled and was told that couldn't happen as there was a tree preservation order on it. Could you please confirm to me that the allegedly rotting branch is actually rotting and this isn't an attempt to fell the tree bit by bit.

In conclusion I am registering my objection to this planning application unless in the opinion of a tree surgeon the work is absolutely necessary.
