F.A.O Nicola Moore,
Please find attached the sketch plan requested for the above application number.
With regards to the Oak & Ash tree the dimensions to take off have been stipulated as between 2-4 metres, this is because the amount cut will be different from each branch however if a definite measurement is required I would apply for 3 metres.
Please let me know if this is sufficient to progress my application.

Kind regards,

Darren Docherty
Director
