Hi Sian

Thank you for your reply and help, please note : the garage is situated 8.5 metres away from the main road and 2 metres from the boundry fence, I do hope the additional email attachments meet your requirements...once again thank you for your assistance, Kind Regards

Dear Sir/Madam

I am dealing with your planning application. Thank you for your emails with the additional information however there are still a few issues.

Can the attached plan which is called 'Sketch' be converted to a PDF file please. Unfortunately I do not have the ability to do this and it needs to be a PDF in order for us to measure the plans.

Also can the plan I've renamed 'BLOCK' be converted to a PDF and where you have shown the proposed garage can a few dimensions be added or even notes whichever is easier explaining how far away from the boundaries the garage will lie i.e 7m from the front boundary, 2m from the side. If you need more help with this please feel free to call the number on the letter you received and I will be able to assist further.

Kind Regards

Sian
