

Bognor Road roundabout

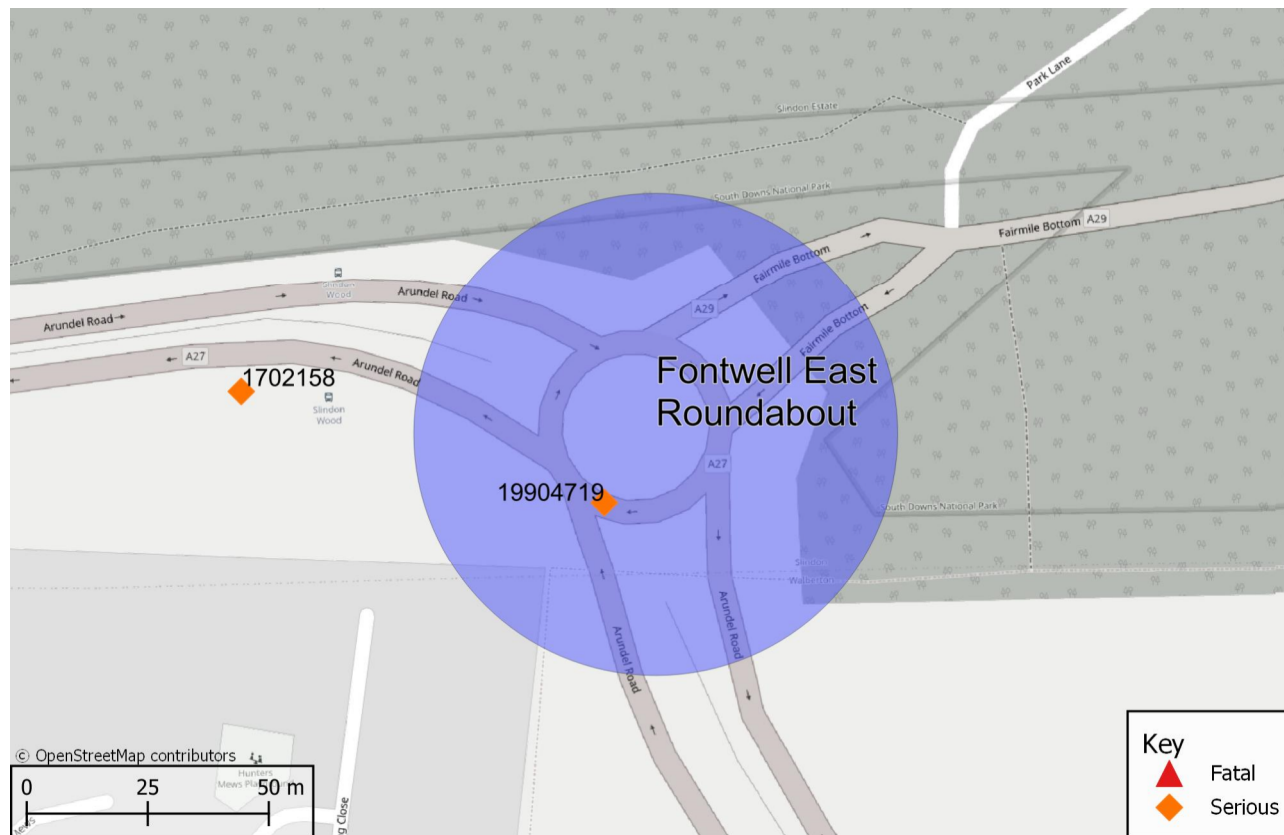

Figure 7: Bognor Road roundabout

- 1.17 Bognor Road roundabout contains five serious collisions within a 50 metre radius.
- 1.18 Collision 20917039 involved three cars. Collision 1401451 involved two cars. Collision 1607441 involved a motorcycle and a small goods vehicle. Collision 1404823 involved a car and a motorcycle. Collision 1803140 involved a car and a large vehicle (bus/coach/HGV). The causation factors have been reviewed and this has allowed us to conclude that the collisions were not due to road or junction geometry.

Fontwell East roundabout

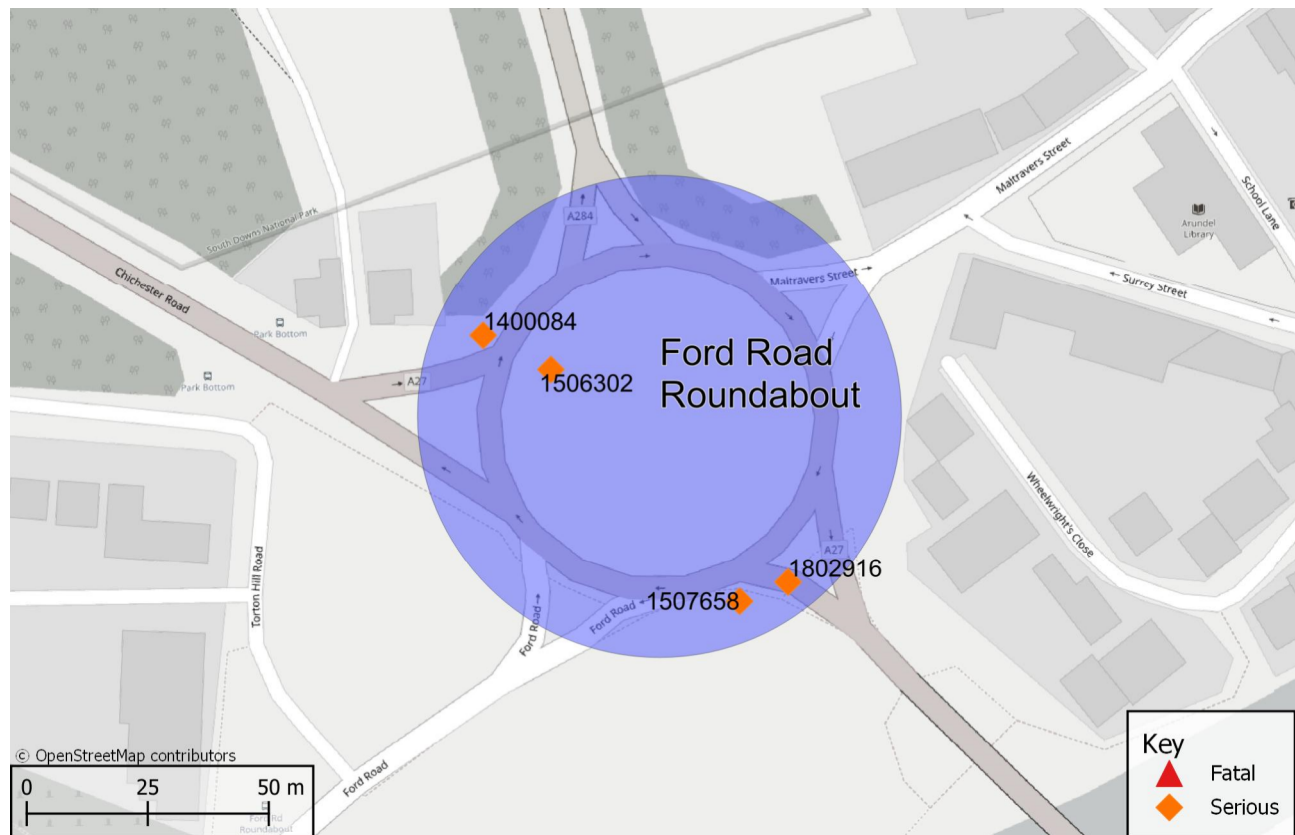

Figure 8: Fontwell East roundabout

- 1.19 Fontwell East roundabout contains one serious collision within a 50 metre radius.
- 1.20 Collision 19910122 involved a small goods vehicle. The causation factors have been reviewed and this has allowed us to conclude that the collision was not due to road or junction geometry.

Ford Road roundabout

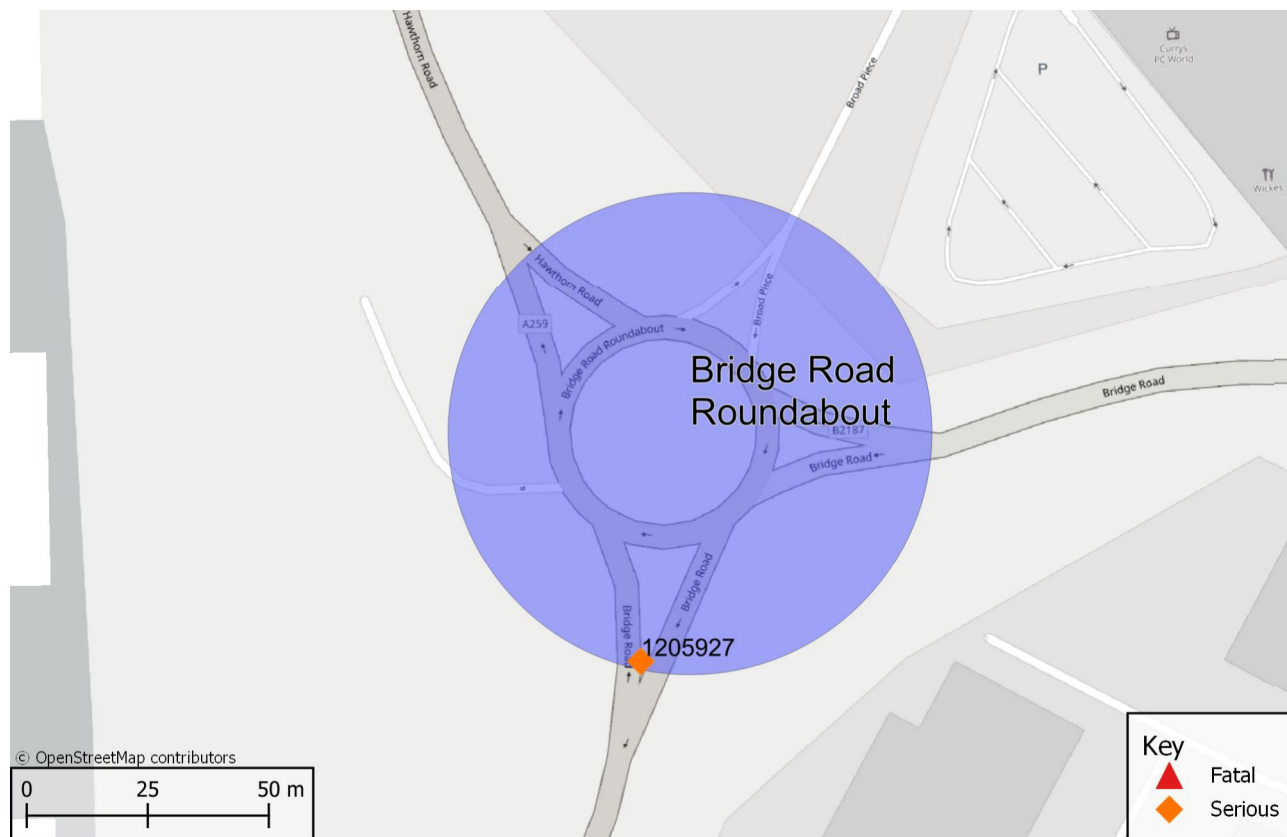

Figure 9: Ford Road Roundabout

- 1.21 Ford Road Roundabout contains four serious collisions within a 50 metre radius.
- 1.22 Collision 1400084 involved two cars. Collision 1506302 involved a small goods vehicle. Collision 1507658 involved a car and a pedal cycle. Collision 1802916 involved a motorcycle and a car. The causation factors have been reviewed and this has allowed us to conclude that the collisions were not due to road or junction geometry.

Bridge Road roundabout

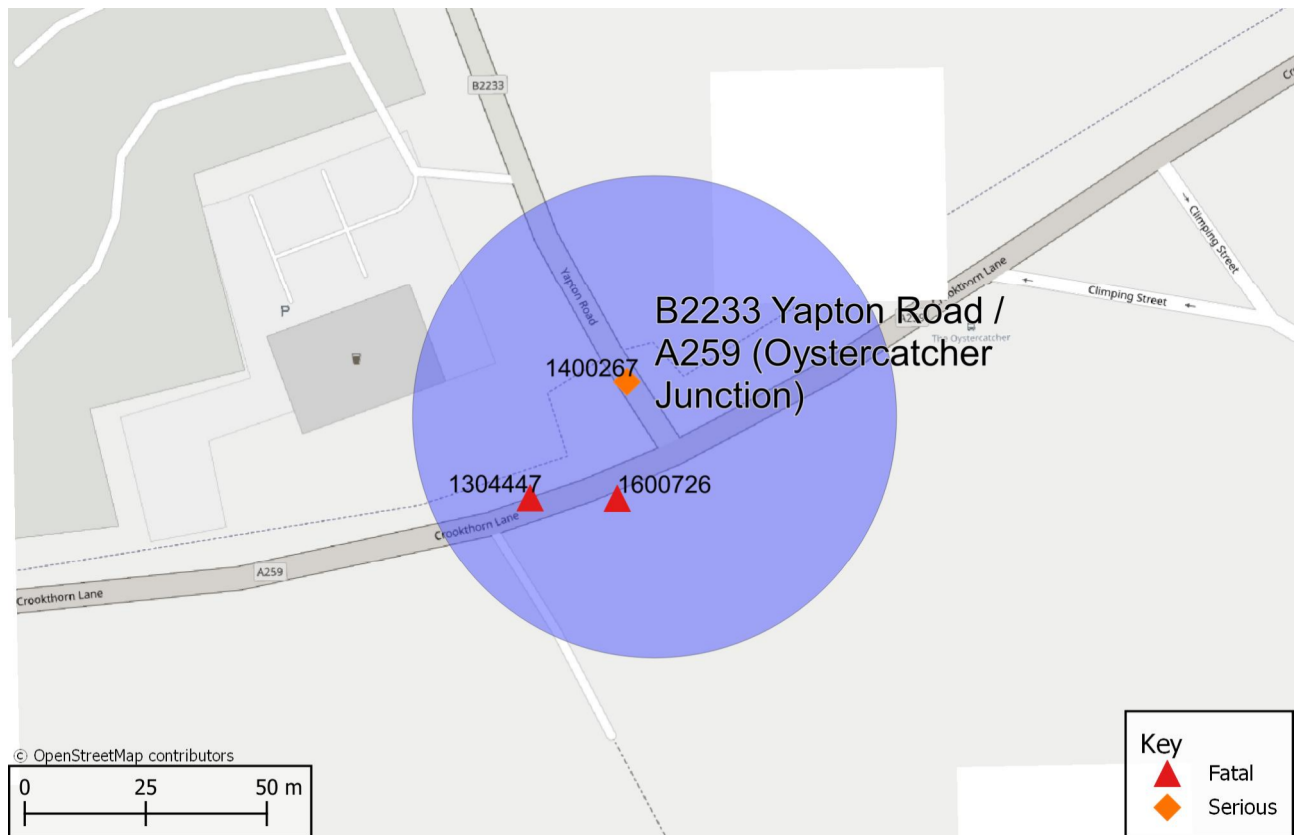

Figure 10: Bridge Road roundabout

- 1.23 Bridge Road roundabout contains one serious collision within a 50 metre radius.
- 1.24 Collision 1205927 involved two motorcycles. The causation factors have been reviewed and this has allowed us to conclude that the collision was not due to road or junction geometry.

B2233 Yapton Road / A259 (Oystercatcher Junction)

Figure 11: B2233 Yapton Road / A259 (Oystercatcher Junction)

- 1.25 B2233 Yapton Road / A259 (Oystercatcher Junction) contains two fatal collisions and one serious collision within a 50 metre radius.
- 1.26 Collision 1400267 involved a pedal cycle and a car. The causation factors have been reviewed and this has allowed us to conclude that the collision was not due to road or junction geometry.
- 1.27 Collision 1304447 involved a car and a motorcycle. Collision 1600726 involved a car. The causation factors have been reviewed and this has allowed us to conclude that the collisions were not due to road or junction geometry.
