OWPC47823

The classification for the land that has been attached to this planning application is (Arable) i have checked this on (Natural England) a publication by Natural England on the 24th August 2010 under Reginal Agricultural Land Classification (Natural England Access to Evidence) in the Agricultural Land Classification it states that the Barnham area is classified as excellent this classification is what i was told by the person doing the tests on the land this proves that the land is prime farm land and is the land that is on this working farm it cannot be right to ruin peoples businesses and destroy a working farm that produces food to feed people we need our farms stop building houses on them.

There are enough houses being built in the Barnham area to supply needs as i understand Arun District Council cannot supply a 5 year land supply as they should do due to the amount of over development in this area.

Your views as made above will be considered before the application is determined.
