Dear Nicola

Reduce height by 25% 6 No. trees within the Eastergate Square Conservation area

Further to my application and your response for information regarding the height reductions I have had Holly Redford-Wilson who runs a company called Landgirls provide me with the following information.

She has estimated the following reductions in meters.

Bay - height by 2.5m, width 1.5m
Acacia - height 4m width 3m
Maple - height 3.5m width 1.5m
Norway Maple - height 2m width
Arbutus - height 2.5m
Indian Bean - height 1.5m

I apologise for not including absolute heights in my original application. Holly seems to understand how to reduce the height of the trees while maintaining their initial and future aesthetic.

If I can be of any further assistance please do not hesitate to get in touch.

Regards

Ed Jay
