Dear Sir or Madam.
With regard to the application
to build a care home & bungalows on
the field next to Highfield house.

Once again an attempt is
being made to destroy one of the few
remaining green spaces between Yapton
and Barnham.

Not only would this
destroy the semi rural character of this
area but would add considerably to
the amount of traffic and in particular
stationary cars waiting to join the
traffic flow and adding to the air
pollution in no small measure.

Ideally the Council would
buy the field and plant trees on it
thereby helping combat the increasing
pollution - but as that is very
unlikely, at least turn down the
application & retain our little bit of
greenery for the sake of our health
and wellbeing.

Yours faithfully,

Mrs Angela Blake.
