Dear Mr.Cole,

Please see attached the images taken at High Ground Lane, Barnham on 5th March 2020.

I would like to invite you to give these images serious consideration when deliberating over the above planning application, given the close proximity of the proposed site.

As many local residents have raised concerns over this application I would like to add this proof to the many letters of objection you have received.

I understand the date for comments on Arun's website has passed, but considering the seriousness of the matter, I feel these images should be taken into account.

As a resident of Marshall Close in Barnham, I am very concerned at the possibility of this proposal being granted and the detrimental effect on the surrounding area which already suffers from flooding.

I also have video footage that can be viewed which shows the awful flooding in detail which can be viewed.

Unfortunately it will not send via email due to the size of the attachment but would be keen for you to view it.

Kind regards

Matthew Hopkins
