

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Morning Mr Occleshaw,

I have spotted your previous email, I am not ignoring you I have to prioritise.

Please let me know what time tomorrow is the most suitable to call you.

Kind regards

Maria

Morning Ms. Tomalova,

We are two weeks away from the determination date so can we arrange a time to discuss any issues or conditions? ... please let me know when we might so this and we can schedule time as required.

e.g. the Southern Water response which we can easily address by changing the application to connect to the mains sewer. We thought, given Southern Water's publicly declared inability to meet growing demand, that we were proposing a positive idea.

On another point, a large branch came down in recent storms. Damaged a building and took out the fencing. Building has been repaired and I have a contractor in today to prepare for new fencing. It was in a poor condition already so a much needed piece of maintenance. I have taken many photos to show the poor state of the fencing. This is not connected to the application but I felt I should

declare the work being done so there is no confusion.

Regards

Tony Occleshaw
