The Town and Country Planning (Environmental Impact Assessment) Regulations 2017 require that development that meets the thresholds set out at Schedule 2 of the Regulations should be screened so as to determine whether or not it comprises Environmental Impact Assessment (EIA) Development. In this instance, the development does fall under the description in Schedule 2, 10 (b) Urban Development Projects, which states:

- i. The development includes more than 1 hectare of urban development which is not dwelling house development; or
- ii. the development includes more than 150 dwellings; or

Henry Adams LLP Rowan House, Baffins Lane, Chichester, West Sussex PO19 1UA

Town Planning ► Development Consultancy

iii. the overall area of the development exceeds 5 hectares.

The development exceeds the indicative thresholds set out in the Regulations and is therefore deemed to be Schedule 2 development. Due to the scale of the development and it not being of more than local significance, it is not considered to be EIA Development for the purposes of the above quoted Regulations.

It is considered that the documents submitted in support of this application allow sufficient information for the Council to assess the likely effects of the proposal. We therefore request that the Council confirm this following receipt of the application and issue a Screening Opinion with 21 days of receipt of this application.

I hope that the submission is in order and I will look forward to receiving confirmation that the application is valid, however, should you require any further information; please do contact me on the number above.

Kind regards,

Peter Cleveland MRTPI
