Dear Mr Davis
BN/157/21/DOC

With reference to the above planning application just registered to approve substitute roof coverings and vertical tile hanging under the already discharged condition 10, external materials.

The applicant wishes to explain that they are having great difficulty securing the previously consented tiles. Redland's tiles I have been informed will be delayed for at least 6 months and presently are not accepting orders because some of the larger house builders are absorbing all the tiles being produced.

My client is proposing alternatives matched as close as possible to those approved and will need to place orders for these as soon as possible to be confident of having the tiles when required.

Please let me know if you have any queries or early views on the substitute tiles.

Kind regards
Nicholas
