Attn Mr Bannister

Dear Mr Bannister

Re : Proposed Remedial Work to Trees at
Fieldfares, Church Lane, Barnham. PO22 0BP

Further to our telephone conversation on the 14th May I enclose two copies of a 1:500 scale Dwg. indicating the location of remedial work to trees at the above property

I understand that as the property is within a conservation area a period of six weeks is required for consultation and approval

The proposals are as follows

1. *Cut back overhanging trees to the drive of Sylvan house including the removal of dead limbs and reduction of a flowering Crab Apple.*
   This is to reduce nuisance and improve light and air to the Northern boundary of Fieldfares

2. *The reduction of an existing Apple Tree*

3. *The removal of overhanging limbs to existing south and east boundaries*

3. *The reduction of a 'copper' maple to allow its juxtaposition to an adjacent Yellow Robinia to enhance both specimens*

Generally [redacted] the work is to reduce nuisance to neighbours and introduce more light and air to the Garden.

Should your tree officer need to visit the site I would welcome the opportunity to discuss with him any other trees within the boundary, which he would consider in need of attention

Yours sincerely

[redacted]

John Belcher
