POLICY COMMENTARY

The above policies combine to describe the criteria against which the application will be assessed particularly with regard to visual and residential amenity.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 38(6) of the Planning and Compulsory Purchase Act 2004 states:-

"If regard is to be had to the development plan for the purpose of any determination to be made under the planning Acts the determination must be made in accordance with the plan unless material considerations indicate otherwise."

The proposal is considered to comply with relevant Development Plan policies in that it would have no materially adverse effect on the visual amenities of the locality or the residential amenities of the adjoining properties, nor would it have an adverse impact upon the established

character of the surrounding rural area.

OTHER MATERIAL CONSIDERATIONS

It is considered that there are no other material considerations to warrant a decision otherwise than in accordance with the Development Plan and/or legislative background.

CONCLUSIONS

The two storey property is located within a large plot and is surrounded by hedging and tree screening and is sited approximately 12m from the front of the site.

The application seeks to remove the existing lean-to on the rear elevation and extend the roof by approximately 1.1m which is lower than the existing roof line. This will create additional height to the existing bedroom which is to be converted into a bathroom. There are open fields to the rear and south of the site and the neighbouring property to the north Quince Cottage is set back from Ravenhurst and is approximately 14m away. In view of this distance it is not considered that the proposed roof extension would harm the occupiers of this property by way of overbearing effect or overshadowing.

The two flat roof detached garages which are located to the rear of the property and sited on the north and south side boundary in the rear garden are to be replaced with a slate pitched roof that will match the existing roof of the property. This will increase the height of the roof to 4.6m which is approximately 2m higher than the existing flat roof. There are no immediate properties to the south of the site and the existing garage to the north is sited within 4m of the neighbouring property Quince Cottage. With adequate distance to this property it is not considered that the increase in roof height would detrimentally harm the occupiers of this property by way of overbearing effect and overshadowing.

The proposal is not considered to be obtrusive, nor would it detrimentally harm the character and appearance of the surrounding rural area.

It is therefore recommended that the application be approved, subject to the following conditions

RECOMMENDATION

APPROVE CONDITIONALLY

1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).

2 The materials and finishes of the external walls and roof of the extension hereby permitted shall match in colour and texture those of the existing building.

Reason: In the interests of amenity in accordance with policies DEV1 of the West Sussex Structure Plan and GEN7 of the Arun District Local Plan.
