RECEIVED

Sir,

I am most concerned regarding the planning application to PA/18/13. Concerning an extension of hours for the Community Centre.

Already we have noticed a considerable increase of shouting and screaming when passing etc. time which I assure you is not conducive to car stop pattern also the noise from the car park and flashing lights is very disturbing.

I would hope that you would seriously consider the detrimental effect another hour would make to the residents nearby.

we have to put with the  
constant shaking swearing and  
champing noise of a ball.  
constant & killing the seed at  
the enclosure.

We certainly object to  
further disturbance by increasing  
the noise level further and total  
your consent
