The Planning Officer

Our District Council  
Lalleshington,  
West Dorset

Dear Sir

Re Planning Application 14/10/20/14

I understand that this planning application is to have an 18 inch pipe to meet a 6 inch pipe to provide the passage from an another estate and into Elm Grove South. Why is this going through my garage complex and onto our highway and not through the estate for which it is coming.

This is totally unacceptable for our residents. I have lived here since the late 1960's and my garden door flood from time to time. But this

Please reassure me that this will not happen  
Yours sincerely
