25th March 2020

Dear Sir/Madam

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Variation of condition 15 imposed under EG/29/13/ relating to condition 15 - to change the foul drainage scheme from Sewage Treatment Plant to Pumping Station with associated drainage works.

Former Brooks Nursery Eastergate

Thank you for your internet representation made on 25th March 2020 which has been recorded as '**an objection**' with the comments as follows:

I object to this application as the increased volume of sewage that would be forced (by a newer pressurised system) onto the older foul sewage system in Elm Grove South, must increase the risk of sewage escaping from the older system. Thereby flooding into dwellings (including a school) or gardens and roads in Elm Grove South. The applicants were prevented from connecting Upton Brooks development to the mains sewer in Barnham Road in 2013 and if this current application were granted it would be joining the same sewer main, but further along it's route. The potential sewer problems have not changed since 2013 and the applicants should have ensured they provided an efficient sewage system to those who purchased houses on their development. My right to a decent living environment should not be at risk of foul smells or the health danger of raw sewage escaping, due to a property developers failure to provide an efficient system. Presumably they had either inhouse or external experts who advised and designed their sewage system and they should resolve their own problem.

Unfortunately it is not possible for the council to respond to each representation individually but your views will be considered before the application is determined and I shall write to inform you of any decision made.

If the application is to be determined at the Development Control Committee and your letter has been received after the agenda has been published, you will not receive a separate letter notifying you of the date of the meeting and the procedures for public speaking. In such circumstances, it is recommended that you track the progress of the application on the website or telephone for further information. Please be advised that any comments received after the the Development Control Agenda has been produced will be reported to the meeting. Please also note that only a small number of all planning applications are determined at the Development Control Committee, most are determined by officers under delegated power.

All representations are published on our website so please make sure your views are clear and only include information that you are happy for the public to view. Do not include personal information or information from third parties unless you have their permission to do so. If a complaint is received that permission has not been given for comments included about a third party, the Council reserves the right to redact/remove all relevant information. Do not include information that is defamatory or breaches equality or other legislation. If you do not wish your comments to appear on the website and on the file, please confirm this in writing and I will arrange for it to be destroyed, although this does mean that its contents will be disregarded. For details of what we do with your personal information please refer to our privacy statement comments on planning applications which is

available on our website www.arun.gov.uk/planning-privacy-statements.

In the event of a subsequent written representations appeal, against a refusal of planning permission on a householder application, any representations made on the application will be automatically forwarded to the Secretary of State. Unlike all other types of appeal, there will be no further opportunity to comment at the appeal stage.

Yours faithfully

Neil Crowther
Group Head of Planning
