

[REDACTED]

Please upload the below to the above application: confirmation of an EoT.

Thank you

[REDACTED]

Hi Maria

Thank you for your email

I have cc'd our Technical Director, Gary Webster into my response in order that he can address the design issues you have raised

We have no issue with extending the Planning deadline as requested

Julian,

With regards to the above application I would like to ask you for your confirmation of an EoT with a new deadline on 26 June 2020.

This application will be decided by the Committee on 24 June 2020.

Meanwhile, I do not know if you had a chance to see the comments of our Drainage Engineers:

In terms of the proposals effect on the existing suds (surface water drainage system), I would like to make the following comments;

- a) The open channel/ditch in which the sewage treatment plant discharges into at present, before it connects into the suds pond, is proposed to be infilled.
The applicant will need to be provide written confirmation with supporting calculations to prove that the storage for surface water within the suds system is not compromised as a result.
- b) Where the proposed rising crosses the incoming surface water outfall to the pond and the known land drain running parallel to the eastern boundary of the development, the applicant should provide a longitudinal section to prove no impact on these pipelines.

If can provide the required as soon as possible it would be great.

Kind regards

Maria
