Subject: re planning application BN/18/20/PL

Dear Maria.

I have viewed the Planning application report and have noticed that it says in the report that the Environment Agency has no objection to the proposed planning application as I read the entry from the EA on the 11/06/2020 it clearly says that they think that the sewer should be discharged into the main sewer in Barnham road can this point be put right as this will mislead the planning committee and this clearly is an objection to the proposal

Can I also bring to your attention the letter from Southern Water dated the 16/06/2020 and the part in the letter that says (approval for the connection should be submitted under a section 106 connection application subject to completion of sewer improvement works dealt under Southern Water ref SWS.S98-000752) can you please tell us what the content of this reference is as we need to be able to view the proposed improvements that they say will be carried out to the system.

yours sincerely Mr B.Barbary (EGS residents association, Barnham road and Upton Brooks residents)
