Dear Mr Leal

I recently submitted an application (LPA ref: BN/19/16/PL) for the demolition of vacant office building & erection of 7 No. dwellings with associated garaging & landscaping at the Pollard Nursery Site in Barnham. Following the submission the client, Redrow Homes Ltd has advised that the point of contact for a High Voltage cable needs to be within the proposed development site. This has an effect on plot one. For this reason I have attached plans which my client requests to be substituted under the current application to reflect this change. The architect has shown a revised unit on the existing plot 1 with plot 2 moving into the public open space. The public open space on the revised layout is 478sqm which exceeds the local requirement.

The substituted plans include the following:

Document/Plan	Original Drawing Number	Superseded Drawing Number
Design and Access Statement	Design and Access Statement Rev 1	Design and Access Statement Rev 2
Street Scenes	S5-01 Rev B	S5-01 Rev C
General Arrangement Plan	2600-LA-06 P3	2600-LA-06 P4
Illustrative Landscape Masterplan	2600-LA-07 P3	2600-LA-07 P4
Planting Plan	2600-PP-06 P3	2600-PP-06 P4
Drainage Strategy	Drainage Strategy Rev 1	Drainage Strategy Rev 2

These plans have been attached however the revised Drainage Strategy will follow early next week. Would you be able to clarify if these new drawings will require additional consultation?

I trust that this is acceptable however do let me know if you should require anything further.

Kind regards
Carla
