To Whom It May Concern

Re : Cottage Piggeries, Church Lane, Barnham

I write concerning the above property. I wrote originally on the same issue on 2nd May 2013 (copy enclosed) and have written again more recently in similar vein. I am now told that Mr Brazil wishes to pursue the matter of building a house for his growing family so that they do not have to continue residing in their mobile home. The Brazil family have now lived at this location for nearly seven years and are settled within the community. Their family has grown, they now have four children, and a move into a permanent structure away from the flood plain would seem both sensible and compelling. I have not yet seen any formal plans but would support the notion in principal should I be asked.

Yours sincerely,

Tristan Thwaites.
