Hi Simon

As agreed the Parish Council considered the drainage impact assessment and also had some local residents present.

The Council was pleased that the drainage assessment had been undertaken prior to the application being considered. However, they wished to comment that they supported the concerns raised by the residents present in relation to the fact that if the development goes ahead there could be a considerable financial impact in respect of them having to pay for some drainage works to support the development and if that is the case this seems extremely unfair on those residents. If the development is to be allowed surely any such works required should be paid for by the developer.

Alison Crabb
Clerk, Barnham Parish Council
