Your Ref:

Our Ref: BN/23/20/DOC

Dear Mr Davies,

Town & Country Planning Act 1990 (as amended)

Town and Country Planning (Development Management Procedure) (England) Order 2015

Approval of details reserved by condition imposed under ref BN/23/15/PL relating to Condition No 5 - surface water drainage, 6 - discharge of any flows to watercourses and 7 - future access & Maintenance of any watercourse or culvert

Coniston Lake Lane Barnham PO22 0AD

Notification regarding the above application:

Condition Number 6

The development shall not proceed until formal consent has been approved in writing from the Lead Local Flood Authority (WSCC) or its agent (ADC) for the discharge of any flows to watercourses, or the culverting, diversion, infilling or obstruction of any watercourse on the site.

Any discharge to a watercourse must be at a rate no greater than the pre-development run off values.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan.

Decision:

Arun District Council have decided to **REFUSE details reserved by condition for the following reasons:**

The information submitted is not adequate to discharge the conditions.

The following information is required before the details can be approved.

- Numerous invert levels have been changed. The invert level of the silt trap manhole is not clear (- 0.900?), neither is the rodding eye invert level. Please provide clarity on the drawing.
- Revised drawing 535/02 has not been received.

We wrote to you on 28th May 2020 to make you aware of this issue but to date no further details have been provided. As such, the condition cannot be discharged and you will need to make a revised submission.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely

A handwritten signature in black ink, consisting of stylized, cursive letters that appear to be 'NC' followed by a flourish and a period.
