

[REDACTED]

Hi – pls can you add below email to the file and label as 'CDC Ecology – 2nd comments'

Thanks

Amy

[REDACTED]

Morning,

I have had a look at the below and I am happy that reptiles are not onsite so no further work is required for this species. However they need to submitted the Preliminary Ecological Appraisal (April 2020) which is discussed within the reptile survey report as this report will have looked at the site as a whole and a variety of protected species rather than just reptiles so it an important document for this site. I am also not sure what mitigation he is referring to, I am assuming this is addressed within the Preliminary appraisal, because no further mitigation is required for reptiles.

Many Thanks

Liz
