Hi Simon

My stance or opinions haven't altered one iota on this case. The proposed movement of the dog garden / training field to an adjacent field which would appear further away from some complainants is irrelevant in terms of nuisance as I have witnessed statutory nuisance from a distance that amounts to more than the subsequent change on the planning documents; it is the 'control of noise' that is key in this case

That said, I have yet to see a comprehensive noise assessment by a competent acoustician. Likewise, no satisfactory mitigation measures for the abatement / control of noise nuisance have been laid out for the EH department to assess

Therefore, I remain resolute to my original comments and recommend 'refusal' in this application

Kind regards

Christopher Davis

Hi Chris,

I've just had the applicant on the phone chasing for an update. Can you provide your further comments on the application re the change in site area please.

Kind Regards

Hi Chris.

The amendment to the current application concerns the site area. They have proposed to no longer use the field to the south of "Field House". Please see attached new red edge plans. We did reconsult EH on the 6th August. Not sure why this didn't get to you. But yes if you can provide further comment i.e. whether or not this affects your objection, that would be great.

Kind Regards
