Importance: High

Dear Michael,

Thanks for your Email. Please find attached revised drawings updated to address the landscape officer's comments including:

- Landscaping drawing 11E-sheet 1 & 2 demonstrating the position of informal play area
- Drawing No. 17748-5-SK003, Section illustrating the cross-section of the basin in relation to the apartment block.

We trust you have everything to determine the application. However please do not hesitate to contact us if you require any further information or clarification.

Read receipt for this Email is much appreciated.

Kind regards

Hi Matthew,

Please see the email from Sue Howell, below requesting a cross section through the south western corner of the site so that the basin shape in relation to the repositioned apartment block can be viewed as proposed build; and confirmation of where the play offer is to be sited in relation to the open space on the site.

I look forward to receiving the requisite plans.

Kind regards,

Michael

Hi Michael

Thanks for the attached, good to see that thought being put into improving the offer here.

- I note that the proposer has suggested '**Attenuation basin shape revised and relocated to south western corner**' please can you request a copy of cross section through this area so that the basin shape in relation to the repositioned apartment block can be viewed as proposed build?
- Please can they also confirm where the play offer is to be sited in relation to the open space on the site?

Thanks and regards

Sue

Hi Sue,

For your information, the applicant has come back with a revised layout for the POS and the apartment building at The former Lillies Caravan Park, Barnham.

What do you think of the amended layout?

Regards,

Michael

Dear All

The design team have had discussions and we have sketched the attached which we think goes a long way to addressing the below concerns.

We have reworked the area around the POS to the south which I summarise as below;

- Repositioning of the apartment block so it sits to the southern edge of the development, pushing this back now opens up the area of POS making a more attractive setting as requested.
- The apartment block still acts as a vista stop as we enter the site on Yapton Road progressing south, also as the adjacent development looks into our site from the west.
- Apartment block has active frontage to all sides.
- Low hedge row shown around apartment block defining defensible and private space, note that the apartment block do have Juliette balconies which will open on the POS area.
- Pumping station location revised to western side.
- Attenuation basin shape revised and relocated to south western corner.

We would hope that this solution is now feasible with yourselves and has had a positive impact on the scheme, should this be acceptable then we will arrange for the relevant revisions to be made to the drawing pack and be re-issued to you shortly.

Should you need to speak with me on the phone then please do so as we wish to take this forwards with a positive outcome today.

Kind regards
Matthew
