Your Ref:

Dear Mr Moore,

Please ask for :
Mrs J Chapman
01903 737657

**Reduce crown of 1 No Monterey Pine tree by 2m within the Church Lane, Barnham
Conservation Area.**
1 Field Cottages, Church Lane, Barnham.

I refer to your recent notification of your intention to carry out the above mentioned works and write to inform you that, after consideration of your proposal, it has been decided not to make a Tree Preservation Order in this case. You may therefore proceed with the works outlined in your notification.

INFORMATIVE: The Crown Reduction should not exceed the removal of single branch lengths which are greater than 1m from the periphery of the original crown diameter. The branch removals should leave healthy substantial leaf bearing side branches. All side branches to be retained should be at least 1/3rd in diameter of the removed branch. Pruning cuts must be flat and smooth, kept as small as possible by cutting at an optimum angle and should not exceed 100mm in diameter.

The Crown Clean should consist of deadwood and stub removal where all cuts should be made to the branch collar. Where crossing branches are encountered the weaker branch/branches should be reduced or removed to avoid contact between them. The remaining branch/branches should be shortened as appropriate to relieve 'end weight' and sudden exposure by reducing the leaf bearing branch tips by no more than 30%.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

I trust this is of assistance to you.

Yours sincerely
