Subject: Planning Application BN/29/15/PL

For the attention of Mr. Richard Temple

Dear Sir,

We would like to register an Objection to the above Planning Application BN/29/15/PL as hereunder. We do not know if they are recognised objections from the Council's point of view but they are objections from us, as Residents, in the proposed area:

The use of Church Lane for access to the construction site of the proposed solar development is opposed due to the high number of large vehicles that would be using the Lane. Whilst BNRG Renewables have proposals for the management of their own vehicles, albeit unworkable, no mention has been made for Residents' use of the Lane on a normal day to day basis. There is already a high volume of heavy traffic and large vehicles using Church Lane with tractors driving at high speed.

No consideration has been mentioned regarding vehicles for refuse collections, emergency vehicles if required, walkers etc. The Residents of the Old Vicarage have certainly not been considered in the proposal to use the lay-by outside their property.

Finally, it is noted that the Council regard the plan as 'Departure from the Development Plan' this is not understood. Also I was under the impression that we were within a Conservation Area, therefore it is considered that the whole development is unnecessary and inappropriate.

Yours faithfully,

Mr. & Mrs. P.H. Ward

Ferndale,

Church Lane,

Barnham. PO22 0DA
