Dear Sir,

Re:- the Solar Park Proposal at Barnham Court Farm

I write with reference to your letter of July 31st with regard to the above proposal..

I was unable to attend the consultation meeting on the 3rd September 015 at Barnham Village Hall but wanted to register my concerns about this proposal and the associated impact on my life.

My concern is not about the Solar Farm per se but about the construction, noise and the traffic intrusion.

Firstly the constrcuion and noise; when a solar farm was recently constructed close to this proosed area there was the constant thud of the power drivers for days at a time to the extent that we could not have open windows and doors. This proposed construction is much closer and is therefore likely to be noisier and more intrusive into our daily lives and not acceptable.

Secondly the traffic intrusion, I live in a country lane, just off Church Lane; these lanes were built for horses and carts and not for the volume and size of vehicle necessary for this exercise. One large vehicle coming up Church Lane blocks the road; even though a staging, wait point is proposed there will still be a huge volume of large vehicles using a country lane, which was not built for it causing traffic jams and disruption for those of us who live here.

In addition there will be an associated effect on the local footpaths where I walk my dog a number of times a day, this will make these walks dangerous and less enjoyable. This is a quiet conservation area not an urban building site access area.

I would be grateful if my comments could be seriously considered and that planning permission is refused for this development

Yours Sincerely

Sue Cart
