

7 Alleyne Way | Elmer Sands | West Sussex | PO22 6JZ

To whom it may concern

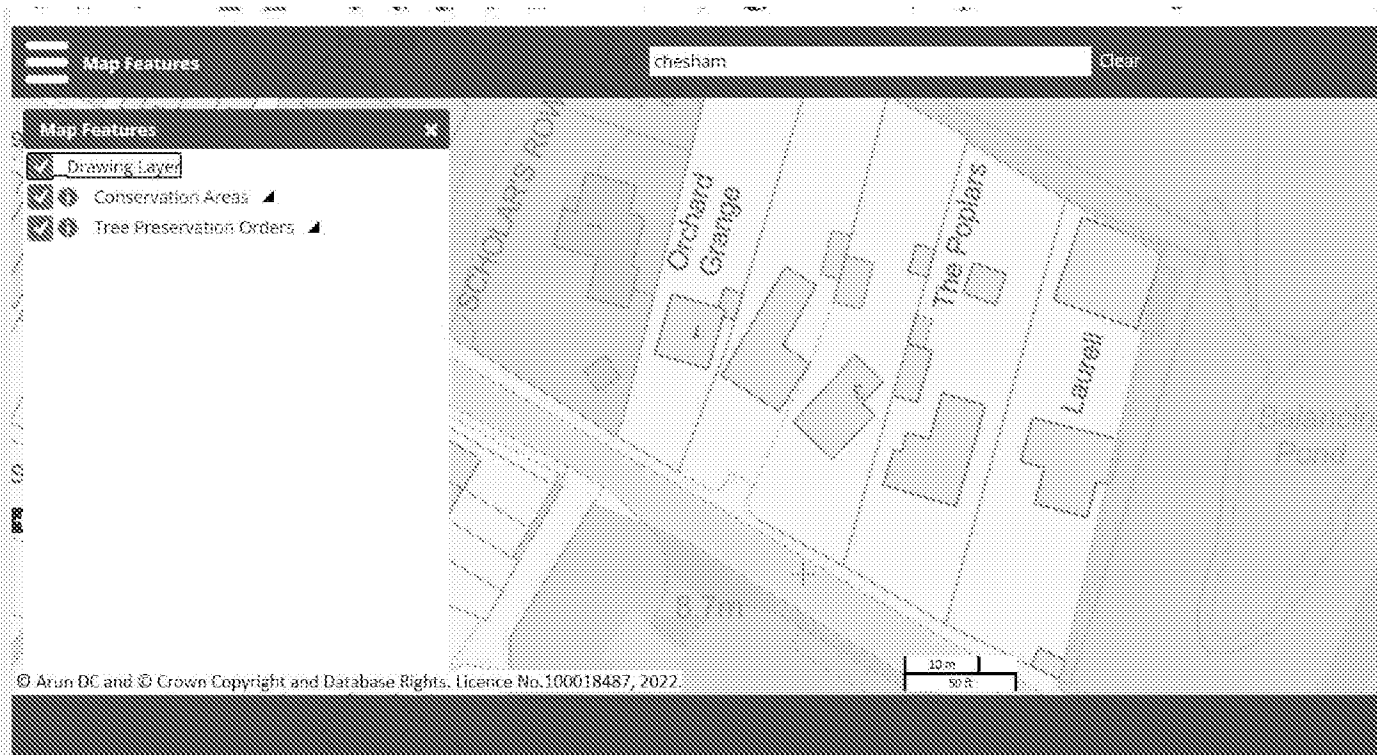

Re: Sycamore Trees at the rear of 'Laurell' Yapton road, Blossom way. PO22 0FE Please see tree location diagram below for clear reference.

Description of works to be undertaken: T1 – T5 (Sycamore Trees) crown lift to 4metres, reduce lateral spread back by 1.5 – 2metres leaving a canopy spread of a minimum of 4metres. Only crown lift branches that are overhanging third party property. Purpose of work is to prevent damage to property as tree branches have come into contact with property and are starting to cause minor damage.

Kind regards

Rebecca Johnson

Office Manager
