

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Subject: RE: Planning Consultation on: BN/30/21/DOC

I refer to the application below and make comments on the application to discharge condition 8-Details of electric charging of vehicles.

The number and location of charge points is acceptable, however in order to recommend discharge of the condition I would need more specific information on the charge point to be used. Some Rolec units are only designed for

occasional EV charging and we would require a unit which is designed for regular overnight charging of electric vehicles.

Joanne Lewis

Please note that I work part time, usually between 09.30 and 14.30 Tuesday – Friday.
