

ARBORICULTURAL SITE MONITORING SCHEDULE

Orchard End, Highground Lane, Barnham

-prepared on behalf of Michael Bates –

The Granary, White Chimney Row, Westbourne PO10 8RS

Schedule Of Site Monitoring & Supervision

- In accordance with the Arboricultural Impact Assessment & Method Statement Report & Tree Protection Plan - Ref: 2003.bjh.July 2021
- To satisfy Condition 14 of the Planning Approval REF: BN/114/21/PL

Date of Inspection	Item	In Attendance	Note/Observations From Inspection	Details Of Any Follow Up Action Required
08.03.22	Pre-Commencement Site Meeting	Between Michael Bates [MB] Site Owner and Bernie Harverson [BH] Arboricultural Consultant	- The Protective Fencing measures on site were inspected to see if they were 'Fit For Purpose' as required under BS5837:2012 and as shown on the Tree Protection Plans BJH 03/04 July 2021 1:500 @A3. - The internal section of the site and all four Hedges have been completely cordoned off using HERAS panels firmly clamped together and footed in weighted blocks (see photographic evidence below). - Construction works may now take place without fear of any damage to the retained Hedges. - The access lane dictates the maximum size of vehicle which can enter this site and there is sufficient ground clearance to cater for this without conflict with off site trees 1 and 2 and Groups 1 & 2 and Hedge 5.	The existing fixed HERAS panel protective fencing is to be retained in situ for the duration of the main build process.
