Richard,

Thank you for the revised plans regarding the above property. I have now taken the opportunity to compare these plans with those submitted as part of the previous application and provide the following comments:

The proposed amendments appear so minor that it is not clear how the applicant/agent have taken my previous comments into account. Unfortunately, due to the very minor level of change, my previous comments still apply. These comments are linked to the listed building consent, but I can pass a copy of these to you again if that would help you?

Kind Regards

Martyn

Richard,

Your Refs.: BN/37/18/HH & BN/38/18/L

Please see revised plans attached in respect of the above applications which we would like you to present for determination.

Further to our recent exchange following the conservation officer comments, these have been duly noted and the design revised to lessen the overall height and reduce the projection past the end of the building.

Both ourselves and the applicants feel this revision demonstrates an acceptable proposal for the listed building and it is hoped this can now be viewed favourably. Please advise on a revised determination date so I can notify the applicants accordingly

Regards

Gareth

Kind Regards
