Dear Danny,

I have had the agreement from Laura to discharge the condition. The file is currently with admin to upload the additional documents provided with Laura's response (which had been provided to her but not me) but once I get the file back, we can issue the decision.

Kind Regards

Hello Laura and Simon, I hope you are both well.

Steve submitted for a discharge of condition (BN/40/19/DOC) on the 11th June.

Given that this only relates to the levels which were missing from the engineers scheme submitted with the original application, is there any chance of getting this looked at quickly as it's holding up development? Or at the very least enabling me to start some of the ground works? Perhaps up to DPC?

As you can see from the plan there is a lot of flexibility on site in terms of space so I can't see a reason why the levels should prevent us from making a start.

I'd be ever so grateful if you could consider what options you may have.

Best regards

Danny
