This is the WSCC highways and transport response to the above planning application seeking variation of condition 2 imposed under BN/43/16/PL relating to approved plans.

Highway consideration.

From reading the application form and following discussion with the case officer, the Highway Authority is informed that the application seeks solely to alter the elevations of the properties that already have planning permission. As such, the proposal appears to not have a highways impact on this occasion. If this has been misunderstood, the case officer should notify the the Highway Authority at the earliest opportunity.

Therefore, based on current description and understanding, the Highway Authority raises no objection to the proposal.
